PROFILE

Innovative Full Stack Developer with hands-on experience in Next.js, React, and Tailwind CSS, delivering fast, responsive, and user-friendly web applications. Adept at translating design concepts into clean, maintainable code and integrating backend APIs for seamless functionality. Strong problem-solver passionate about crafting efficient solutions that enhance user experience and business outcomes.

WORK EXPERIENCE

Vibrant India Tech-internship
Feb 2025 - Present

- Developed and optimized responsive web applications using React.js and Next.js, enhancing user experience and site performance.
- Implemented Tailwind CSS for efficient, scalable styling and consistent design across multiple pages.
- Integrated backend APIs to dynamically display data, ensuring seamless communication between frontend and backend.
- Collaborated with cross-functional teams in Agile environments, contributing to project planning and timely delivery.

SKILLS

- Skilled in developing responsive web and mobile applications with seamless user experience across devices
- Proficient in Next.js, React.js, Bootstrap 5, and Tailwind CSS for building modern web apps
- Experienced in Android development using Java, creating native mobile apps
- Expertise in adding smooth animations with GSAP to enhance web user engagement
- Strong at integrating REST APIs and deploying web projects using Vercel
- Knowledge of Android UI design principles and material design guidelines
- Familiar with debugging, testing, and optimizing Android applications for performance

PROJECTS

1. **Travel App (Flutter Web):**
- Developed a responsive travel booking web app using Flutter, featuring destination browsing and a clean, user-friendly interface.

2. **Champion's Square (Flutter):**
- Developed a multi-featured web app using Flutter that allows users to book tickets, place product orders, and view live stock market updates — all in a single, responsive platform.

3. **Stock Management System (.NET):**
- Developed a desktop-based inventory system using .NET for managing product stock, tracking sales and purchases, and generating real-time reports for streamlined business operations.
