PROFILE

Innovative Full Stack Developer with hands-on experience in Next.js, React, and Tailwind CSS, delivering fast, responsive, and user-friendly web applications. Adept at translating design concepts into clean, maintainable code and integrating backend APIs for seamless functionality. Strong problem-solver passionate about crafting efficient solutions that enhance user experience and business outcomes.

WORK EXPERIENCE

Frontend Developer Intern

Vibrant India Tech | Feb 2025 – Present

- Built and maintained responsive web interfaces using HTML5, CSS3, and Bootstrap 5, ensuring cross-browser compatibility and mobile-first design.
- Developed dynamic and interactive UI components with JavaScript and React.js, enhancing user engagement and application performance.
- Leveraged GSAP (GreenSock Animation Platform) to implement smooth animations and transitions, improving user experience and visual appeal.
- Integrated backend APIs to render real-time data on the frontend, enabling dynamic and responsive content delivery.
- Followed best practices for code structure, version control (Git/GitHub), and performance optimization to maintain clean and scalable codebases.

SKILLS

- Skilled in developing responsive web and mobile applications with a seamless user experience across devices
- Proficient in React.js, Bootstrap 5, and Tailwind CSS for building modern, scalable web applications
- Experienced in adding smooth and interactive animations using GSAP to enhance user engagement
- Strong in integrating RESTful APIs and deploying web applications using Vercel.
- Proficient in native Android development using Java, creating functional and user-friendly mobile apps
- Knowledgeable in Material Design guidelines and Android UI/UX best practices
- Familiar with debugging, testing, and optimizing Android applications for performance and compatibility.

MCA-CGPA-7.5

PROJECTS

1. **Travel App (Flutter Web):**
- Developed a responsive travel booking web app using Flutter, featuring destination browsing and a clean, user-friendly interface.

2. **Champion's Square (Flutter Web):**
- Developed a multi-featured web app using Flutter that allows users to book tickets, place product orders, and view live stock market updates — all in a single, responsive platform.

3. **Stock Management System (.NET):**
- Developed a desktop-based inventory system using .NET for managing product stock, tracking sales and purchases, and generating real-time reports for streamlined business operations.
